Citations

How do I find citations in ‘Search’?
When you’ve found a resource using the UNE Library’s discovery tool, ‘Search’, you’ll see the Actions drop-down menu on the Details, View It or Get It tabs. ‘Citation’ is the first option listed.

Make sure you’ve selected the best referencing system for your studies from the list of available (for example, APA or Chicago).

Copy and paste the citation into your assignment.

How do I find citations in databases?
Most databases have a citation link or button, but the name or appearance of the link or button may differ each time.

How do I know the citation is correct?
Always use UNE Academic Skills Office factsheets to see how to incorporate the citation into your assignment.
